Rusty,

That works for me.

Thank you

I will get back to you in late February as commitments firm up.

Brian White

To Pancho, KA9OFA

Please include the time 10:30AM and primary date March 5th with the raindate March 12th in this months Chatter. Thank you.

K9LCQ

Brian....ok...let's go with March 5th for primary date..and March 12th for the rain date. How about a 1030 am start time?
I'll expect 15 to 20. ...Rusty

Subject: NWS forecast office tour Q&A (revised again)

Since our last meeting some questions have arisen concerning
The tour of NWS forecast office.

The National Weather Service Forecast Office Milwaukee/Sullivan (KMKX) is located in Sullivan Township in Jefferson County, Wisconsin. The office is approximately 3 miles southeast of the town of Sullivan, 30 miles west of Milwaukee and 45 miles east of Madison. The Sullivan office has routine forecast and short-fused severe weather WARNING responsibility for southeast and south-central Wisconsin.

There is an amateur radio station located at the NWS office. It is manned at the request of the NWS during severe weather for receiving weather reports.

Q1. When is the tour?

A1. The tour primary date is March 5th at 10:30am, backup date is March 12th at 10:30am.

Q2. When is the dead line for signing up?

A2. February 24th by the close of the meeting.

Q3. I don't know if I can attend yet, can I just show up at the office?

A3. NO, tours are by appointment only. We have NWS imposed limit of 20. The area to handle visitors is small restricting the number of people they can accommodate and still perform their duties. That is why we are requesting that members commit to the tour by signing up. If you sign up and are a no show YOU have just denied another member the opportunity to see the NWS forecast office. If you feel that you can not commit don't sign up.

Q4. Can non-members attend the tour?

A4. Spouse yes, children and friends no.

Q5. Where is the office?

A5. N3533 Hardscrabble Road Dousman, WI 53118

Q6. Will maps be available?

A6. Yes, at the February meeting for those who have signed up.

Q7. What is the talk-in frequency?

A7. We will not have an official talk-in frequency. However, I will monitor the SEWFARS (146.820Mhz - offset w/ctcss 127.3) repeater from 9:15am until 10:15am.

Q8. Is there a Website for the office?

A8. Yes, <http://www.crh.noaa.gov/mkx/>

Q9. How will I know if the tour is cancelled?

A9. Be aware of the current threat level.

<http://www.whitehouse.gov/homeland/>

If the threat level is high (ORANGE) or severe (RED) the tour is cancelled. Monitor the 145.390MHz repeater for announcements if the tour is cancelled do to other reasons, weather for instance. Check into or at least listen to the

Friday night for any updates on March 4th or March 11th if needed.

Q10. How are the tours handled?

A10. Tours larger than 10 are broken onto 2 groups, one watches a video while the other tours the office.

Q11. What happens if we have more than 20 people sign up?

A11. If we have more than 20 sign up (first come first served) they will be placed on a waiting list. If there is sufficient number I will try to arrange another tour later in the year. If you have signed up and find that you can not attend, call 262 548-6138 (K9LCQ) ASAP so that we may contact anyone that maybe on the waiting list so that they may attend.

K9LCQ

WEATHER OFFICE TRIP SIGN-UP

- 1 - Pancho KA9OFA
- 2 - Tom AB9EK
- 34 - PATRICK ~~KA~~ W9UCQ ONLY ON 5TH
- 5 - R9IZV
- 6 - Gerry W9AR → + 5 to 10 SCOUT LEADERS
- 7 - BILL W9WCF
- 8 - DAVE WB9BWP
- 9 - ✓ JOE STORMEAG KA9DFZ
- 10 - (WIFE MARLENE IF SPOT AVAILABLE)
- 11 - KB9PRF DAVE
- 12 - KA9MWT Kate
- 13 - K9LCQ Brian
- 14 - Leslie (Wife of WB9BWP)
